

September 12-13, 2012 • The Westin Tysons Corner • Falls Church, VA

Call For Presentations

Abstracts Due: March 31, 2012

Reap The Benefits Of Your Hard Work And Share How You're Succeeding In Today's Challenging And Changing Environment!

The building systems industry is in the early stages of a dramatic shift. New codes, standards, mandates, and requirements for energy efficiency and sustainability are pushing the limits of system designers, owners and operators. As changes in the industry accelerate towards a "zero net energy" performance level, industry leaders in systems, solutions, design and operations gain opportunity.

In an effort to provide more detailed delivery of information to tomorrow's leading designers, contractors and operators and to connect them with leading suppliers, Engineered Systems Magazine and Building Intelligence Group are proud to produce the High-Performance Buildings Conference. This two-day program intends to deliver industry leadership, expertise and practical knowledge within two tracks, with presentations focused on technology and innovation and design, delivery and operations all with one goal: to help solve today's building systems challenges.

Seeking presentations on the following topics:

- Building Automation and Controls
- Heating, Cooling & Ventilation
- Building Envelope
- Lighting and Lighting Controls
- Central Plants
- Energy Recovery
- On-Site Renewables
- High Performance Operations
- Metering & Energy Information Systems
- Continuous Commissioning
- Smart Grid and Demand Response
- Resources
- Applications/Case Studies

*If you would like to be considered to present at the
High-Performance Buildings Conference, please
submit your abstract online at
www.esmagconference.com.*

INFORMATION FOR SPEAKERS:

- Please provide a 150-word abstract by March 31, 2012.
- If your abstract is chosen, you will be asked to present in person at the High-Performance Buildings Conference on September 12-13, 2012.
- Once reviewed and selected, you will be required to provide a PowerPoint presentation distributed to conference participants.
- Abstracts and presentations should reflect the highest professional standard. The use of trade names and company advertising is strictly prohibited. NO SALES PRESENTATIONS.
- You will be required to use the provided PowerPoint template for your presentation.

IMPORTANT DATES

For questions please contact: Jeff Seewald – Jeff@buildingintelligencegroup.com

Submission of Abstracts:
March 31, 2012

Notification of Acceptance:
April 20, 2012

*Submission of
Completed Presentation:*
August 17, 2012
